M.N. SALAMATH FAIHA

Full-Stack Software Engineer | Laravel | PHP | JavaScript | REST APIs | MySQL | AI Integration

+94 75 800 2930 salamathfaiha69@gmail.com linkedin.com/in/salamath-faiha github.com/FaihaNiyas takitro.com

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with production experience building ERP/POS platforms, AI-integrated systems, and client-facing web applications using Laravel, PHP, JavaScript, Firebase, and Supabase. Delivered multiple real-world projects from concept to live deployment. Integrates OpenAI, Claude, and Codex APIs into production workflows. Working full-time as an Associate Software Engineer while completing a BSc in Industrial Information Technology.

TECHNICAL SKILLS

Backend and APIs: Laravel, PHP, REST API Development, JWT Authentication, MVC Architecture, Object-Oriented Programming (OOP), Spring Boot (Basic), Java (Basic), Role-Based Access Control

Frontend: JavaScript (ES6+), HTML5, CSS3, React.js, GSAP, shadcn/ui, Tailwind CSS

Databases and Services: MySQL, PostgreSQL (Basic), MongoDB (Basic), Firebase, Supabase

Cloud and DevOps: AWS (Basic), CI/CD Pipelines, GitHub Actions (Basic), Docker (Basic), Git, GitHub, VS Code

AI and Developer Tools: OpenAI API, Claude API, Codex, Kimi K2, Postman, Jira, Envato

Practices: Agile/Scrum, Clean Code, Test-Driven Development (Unit Testing, Integration Testing, E2E Testing), System Design Basics, API Design, Performance Optimization, PHPStan Static Analysis

WORK EXPERIENCE

Associate Software Engineer Jan 2026 – Present

Takitro Digital Agency – Colombo, Sri Lanka

- Built and maintained production full-stack web applications using Laravel and React.js with JWT authentication, role-based access control, and RESTful APIs serving multiple live client businesses.
- Contributed to ERP and POS modules covering billing workflows, inventory tracking, and transaction management.
- Sole developer of the company's official website (takitro.com) – design, GSAP animations, performance optimization, and live deployment.
- Delivered two production client websites (adlernova.com, drtkmetabolichealth.com) with shadcn/ui, responsive design, and Core Web Vitals optimization.
- Collaborated in Agile sprints using Git branching strategies, pull requests, and peer code reviews.

Software Engineering Intern Aug 2025 – Jan 2026

ITx247 Solutions (Pvt) Ltd – Colombo, Sri Lanka

- Built a scalable POS and Inventory Management System (Laravel, MySQL, MVC) covering stock tracking, supplier management, billing, reporting, and full JWT authentication with audit logging.
- Developed ITx247 TicketMate – an AI-powered helpdesk integrating OpenAI API for ticket categorization and chatbot support; built full ticket lifecycle with role-based dashboards (Laravel, React.js, MySQL).
- Built the company website (WordPress) and contributed to database schema design, Postman API testing, debugging, and Git version control workflows.

KEY PROJECTS

Solo Shirt ERP and CRM Management System *Laravel 11 — PHP 8.3 — MySQL — REST API*

https://erp.soloshirts.in

- Sole developer – architected a production-grade API-first modular monolith ERP covering orders, production, inventory, delivery, finance, and CRM with domain-driven modules and zero cross-module database joins.
- Implemented enterprise security hardening (append-only audit tables, DB triggers, CSP/HSTS headers), CI/CD pipeline (PHPStan level 6, Pest/pcov with 100% coverage on core modules), zero-downtime deployments, and Sentry observability.

Client and Company Websites (Production) *PHP — JavaScript — GSAP — shadcn/ui — Tailwind CSS*

takitro.com adlernova.com drtkmetabolichealth.com

- Built the Takitro Digital Agency official website and delivered two live client production websites – all featuring GSAP animations, shadcn/ui components, responsive design, and Core Web Vitals optimization.

EDUCATION

BSc (Hons) in Industrial Information Technology 2021 – Present

Uva Wellassa University of Sri Lanka *Expected Graduation: 2026*

Professional Certificate in Artificial Intelligence – Informatics Institute of Technology (IIT) 2024

CERTIFICATIONS

Python Basic – HackerRank Mar 2026

Postman API Fundamentals Student Expert – Postman Feb 2025

Software Testing Foundations – LinkedIn Learning Oct 2024
