WORK EXPERIENCE

Associate Software Engineer Jan 2026 – Present
Takitro Digital Agency, Colombo, Sri Lanka

- Build and maintain production full-stack web applications in Laravel and React.js with JWT authentication, role-based access control, and RESTful APIs serving multiple live client businesses.
- Develop ERP and POS modules covering billing workflows, inventory tracking, and transaction management.
- Sole developer of the company website (takitro.com) and delivered two live client websites (adlernova.com, drtkmetabolichealth.com) with GSAP animations, shadcn/ui components, responsive design, and Core Web Vitals optimization.
- Collaborate in Agile sprints using Git branching strategies, pull requests, and peer code reviews.

Software Engineering Intern Aug 2025 – Jan 2026
ITx247 Solutions (Pvt) Ltd, Colombo, Sri Lanka

- Built a scalable POS and Inventory Management System (Laravel, MySQL, MVC) covering stock tracking, supplier management, billing, reporting, JWT authentication, and audit logging.
- Developed ITx247 TicketMate, an AI-powered helpdesk with role-based dashboards and OpenAI-driven ticket categorization (Laravel, React.js, MySQL).
- Built the company website in WordPress and contributed to database schema design, Postman API testing, debugging, and Git version control workflows.

KEY PROJECTS

Solo Shirt ERP and CRM Management System *Laravel 11, PHP 8.3, MySQL, REST API*
erp.soloshirts.in

- Sole developer of a production API-first modular monolith ERP covering orders, production, inventory, delivery, finance, and CRM, using domain-driven modules with zero cross-module database joins.
- Implemented security hardening (append-only audit tables, database triggers, CSP/HSTS headers), a CI/CD pipeline (PHPStan level 6, Pest with 100% coverage on core modules), zero-downtime deployments, and Sentry observability.

ITx247 TicketMate, AI-Powered Helpdesk System *Laravel, React.js, MySQL, OpenAI API*

- Integrated the OpenAI API for automated ticket categorization and chatbot support, and built the full ticket lifecycle with role-based dashboards for agents, administrators, and end users.
